Abandonment Of The Patient

Having said that, there are certain common elements among patient abandonment cases: First, the doctor-patient relationship must be established. This means that the physician must have agreed to treat the... Second, the abandonment must take place when the patient is still in need of medical ...

What is Patient Abandonment? | Nolo

Patient Abandonment refers to withdrawal from treatment of a patient without giving reasonable notice or providing a competent replacement. Tangential to withdrawing from a case in which treatment has already begun is the refusal to initiate treatment, which many patients also take as an act of abandonment. In order to constitute abandonment, the termination of the relationship between physician and patient must have been brought about by a unilateral act of the physician.

Patient Abandonment Law and Legal Definition | USLegal, Inc.

In medicine, abandonment occurs when a health care professional (usually a physician, nurse, dentist, or paramedic) has already begun emergency treatment of a patient, and then suddenly walks away while the patient is still in need, without securing the services of an adequate substitute or giving the patient adequate opportunity to find one.

Abandonment (legal) - Wikipedia

Patient abandonment is a serious, yet often overlooked, form of medical malpractice. Generally, patient abandonment occurs when a physician terminates medical treatment without a justifiable excuse or reasonable notice so that the patient can find a replacement physician.
