Specialization allows the financial institutions to process these loans at a low cost (and diversify some of the risk by holding many different auto loans) so that they can lend the money at a relatively low rate. If the financial intermediary is a bank, it gets the necessary capital from the many depositors at the bank.

Of the various business finance solutions available, this option is not as popular. Since there are laws governing private sales of securities, SCOR's provide a means of selling common stock to the public.

Companies can trade their common stock over the counter rather than deal with the difficulties that initial public offerings face.
