Haag Certified Inspector

ASSESSING HAIL DAMAGE Accurate assessment of hail damage is a step by step process that involves an examination of the roof shingles as well as other objects on and around the roof. Marshall and Herzog (1999) presented a methodology on how to quantify hail

File Type PDF Haag Composition Roof Damage Assessment Guide

damage to a roof through the use of test squares.

P 9.4 HAIL DAMAGE TO ASPHALT ROOF SHINGLES - Haag Global

Haag has a nearly century-long track record of analyzing damage caused by weather phenomena, including hail, snow, ice, wind, storm surge, flooding,

File Type PDF Haag Composition Roof Damage Assessment Guide

lightning, tornadoes, and hurricanes. Currently, in addition to our forensic evaluations, we offer desaturation, core removal and other types of laboratory analysis through our Research/Testing Department.

Roofing | Haag Engineering
ASSESSMENT PROCEDURE The

File Type PDF Haag Composition Roof Damage Assessment Guide

assessment procedure is based on determining whether there is hail-caused damage and if so, quantifying the amount of damage on each roof slope. It also involves determining whether repair of individual shingles or shakes or roof system replacement on an entire slope (or roof) is the economical choice.

HCI - Wind Damage | Haag Certified Inspector

Haag Certification is designed for intermediate level professionals, and attendees must meet experience requirements. The Haag Certified Inspector programs teach students to assess damage to all major types of

File Type PDF Haag Composition Roof Damage Assessment Guide

residential (steep-slope) or commercial (low-slope) roofs. For each roofing type, we profile manufacture, installation, weathering, hail and wind damage, maintenance, mechanical damage and repair costs.

About Us | Haag Certified Inspector

The granules are the wearing surface for

File Type PDF Haag Composition Roof Damage Assessment Guide

the roofing and the loss of granules from asphalt shingles is expected over time. But what role does hail play? As noted within the pages of Haag's Composition Roofs Damage Assessment Field Guide, the short answer is that, yes: the impact of a hailstone may dislodge granules from the shingle.
