The Building Code is contained in regulations under the Building Act 2004. The Act governs the building sector and also sets out the rules for the construction, alteration, demolition and maintenance of new and existing buildings in New Zealand.

### **Building Code compliance | Building Performance**

Professional Malpractice.. This last is of more concern for architects in their capacity as project designers. A homeowner's allegations that an architect failed to design a project in accordance with "accepted architectural and building standards" have given rise to a claim for architectural malpractice. The term "building standards" would naturally include local building codes.
